Electrolux Professional Group among the World's 500 Best Companies for Sustainable Growth 2026

Electrolux Professional Group has once again been recognized on the TIME and Statista list of the World's 500 Best Companies – Sustainable Growth for 2026.

The annual report from TIME and Statista, now in its second edition, evaluates companies worldwide on three key dimensions: revenue growth, financial stability, and environmental impact. Only organizations that demonstrate outstanding performance in sustainable development while maintaining strong financial health earn a place on this list.

“Being recognized for the second year in a row underscores our commitment to reduce environmental impact combined with financial stability,” says Alberto Zanata, President and CEO of Electrolux Professional Group. “By exceeding emissions targets, expanding renewable energy usage, and embedding circularity in our products, while continuing to deliver strong financial results, we create lasting value for customers, investors and society.”

This achievement reflects Electrolux Professional Group's ability to combine profitable growth with sustainability leadership, reinforcing its role as a trusted partner for professional food, beverage, and laundry solutions globally.
